

**TOMORROW
SAYS THE POPE**

Predicts His Own Death
At That Time.

FAINTING SPELL TODAY

Continues to Grow Weaker On Account
of Not Taking Any Nourish-
ment.

Rome, July 8.—(5.40 p. m. bulletin.) Con-
dition of the Pope is unchanged. The
evening bulletin from the physicians is
awakened with great anxiety.

Rome, July 8.—Blood poisoning has set
in, and it depends entirely on the progress
of these dread symptoms whether the
Holy Father will last for days or merely
hours. The following bulletin was issued
this morning: "The Pope passed a fairly
quiet night, although he had no restoring
sleep. His pulse became irregular and
his respiration was not as free as it was
last evening. His weakened condition
makes a lengthy examination impossible,
but it is certain the improvement in the
pulmonary condition continues. His gen-
eral condition is somewhat worse, owing
to the loss of strength which is increasing
from time to time."

The Pope today in conversation with
Mr. Angeli, one of his attendants, pre-
dicted he would die tomorrow. He said:
"I am sorry I cannot be present at tomor-
row's service, because tomorrow I die." Early
this afternoon the Pope had another
fainting attack.

Notwithstanding his serious condition,
the Pope insisted at noon on being carried
from his bed to a reclining chair. Dr.
Cardarelli, a well known Naples specialist,
has been called to attend the consultation
at the Vatican tomorrow.

The Pope continued to take little nourish-
ment today. It was announced at the
Vatican this afternoon that His Holiness
temperature varies from 97.4-10 to 97.8-10
Fahrenheit. This is the first time his
temperature has been given out.

brother. The latter went to the room
where Arthur was sleeping with an old

MAY WED OUTSIDE SECT.

Quaker Women No Longer Restrict-
ed in Choice of Husbands.

In obedience to the decision arrived
at a few days ago at a meeting of the
Society of Friends at Philadelphia mar-
riage between Quaker maidens and
men not members of the Orthodox So-
ciety of Friends will not hereafter car-
ry with it the serious consequences im-
posed by the orders and advices of
1682, under which the society has been
working up to date, says the Philadel-
phia Press. The particular paragraph
relating to marriages dated back only
to 1710, but the penalty went back to
1682. The old rule follows:

"And where any (members of Friends)
are present at the marriage of a mem-
ber, accomplished either by the official
interference of a priest or in any other
way out of our comely order, they are
to be dealt with, and where they are
not brought to a sense of their error let
them be testified against."

This paragraph was erased from the
discipline, the revising committee con-
tending itself with an admonishment to
Friends not to associate for the pur-
pose of marriage with persons not of
the society and not to attend the mar-
riages of any members who may marry
outside the pale.

This relaxing of the severity which has for so long distin-
guished the matrimonial laws of the
Quakers was said to have been suggested
by members of the Twelfth street
meeting and was satisfactory to the
yearly meeting.

LOVERS OF GAELIC.

Society to Study the Language Form-
ed in Bridgeport, Conn.

The interest taken in the revival of
the Gaelic language by the Irish people
of Connecticut was manifested in the
meeting held in Bridgeport the other
day, at which a permanent state organ-
ization was formed, says the New Ha-
ven Evening Register. It will be
known as the Gaelic Language Society
of Connecticut. The meeting was held
at Hibernian hall and was attended by
representatives of Gaelic language
schools in Bridgeport, New Haven, Wa-
terbury, Hartford, Meriden, Walling-
ford and Naugatuck. After the discus-
sion of plans for the extension of
schools and the enlargement of the ex-
isting ones officers were elected as fol-
lows:

President, P. M. Foran of New Ha-
ven; secretary, William Foley of Wall-
ingford; treasurer, W. F. Maher of
Bridgeport.

In Bridgeport the class in Gaelic con-
sists of about forty pupils. The mem-
bership is increasing rapidly, and the
pupils are disseminating what they
learn among their associates. Those in-
terested in Bridgeport hope that in a
year from now there will be a large
number who can speak the tongue.

CAUSE OF JEWISH HORROR.

Kishineff Said to Have Honored In-
stigator of the Massacre.

"I have just returned from Kishi-
neff," said M. Myerson, director of
the Jewish Colonization society, to the
New York American correspondent at
Paris the other day, "and I want to tell
you one or two facts apart from the
ghastly record of brutalities of which,
I imagine, you have heard enough."

"Russia has no intention of punish-
ing the brutes who took part in the
massacres. The judicial proceedings that
I heard in Kishineff were a mere
farce. The principal culprits have not
been and will not be arrested, while
the editor of the Bessarabitz, the in-
stigator of the whole affair, was not
only permitted to leave town openly
by train, but was even 'seen off' by
a crowd of enthusiastic friends assem-
bled at the station."

A Memorial to Sir Henry Bessemer.

A representative committee has been
formed in London for the purpose of
raising a memorial to the late Sir Henry
Bessemer. The objects of the memo-
rial are the erection of metallurgical
teaching and research works in con-
nection with the University of London
and the foundation of international
scholarships for postgraduate courses
in practical work.

the same value in tenderloin furnishes
less than one-fourth as much.

**COLLISION
WAS HEAD-ON**

Twenty-Four Killed in
Virginia.

PASSENGER AND FREIGHT

Nine Others Were Injured—Freight
Conductor Failed to Obey
His Orders.

Washington, July 7.—Twenty-four per-
sons were killed and nine persons injured
in a head-on collision on the Virginia
Midland division of the Southern railway
at Rockfish, Va., about three o'clock this
afternoon. Passenger train No. 35, leav-
ing Washington at 11:15 a. m. today for
Atlanta, Ga., dashed into local freight
No. 68. Both engines, the baggage, ex-
press and second class passenger coaches
of No. 35 were wrecked. The coach was
occupied chiefly by colored people.

The freight train was in charge of Con-
ductor Bruback and Engineer Hale and at
the time of the accident was on the return
run from Lynchburg to Charlottesville.
Rockfish station is midway between these
two points and the track is a single one.
Engineer Hale had orders to get out of the
way of the passenger train, but for some
reason failed to take a siding. The trains
came together with a horrible crash and a
fearful scene of panic ensued.

Train No. 35 which ran into the freight
and which left Washington this morning
at 11:15 was made up of an express car,
a baggage car, two day coaches and two
Pullman cars. The train connected with
New York and eastern trains at Wash-
ington.

It was at first reported that Baggage-
master Payne of train No. 35 had met
his death in the wreck. He was caught
under one of the coaches but rescued, and
probably will recover. It is now said to
be almost certain that of those killed, 19
were colored persons, as the second class
coach which was telescoped was occupied
almost exclusively by them.

Later advices from the scene of the
wreck are that the freight train which
was on the main track had been there for
six minutes longer than the orders direct-
ed when the collision occurred.

Train No. 35 which ran into the freight
and which left Washington this morning
at 11:15 was made up of an express car,
a baggage car, two day coaches, and two
Pullman cars. The train connected with
New York and eastern trains at Wash-
ington.

possible to give a list of the killed in the

which reached here today only nine have
been identified. Of these, seven were

**HE MET DEATH
ACCIDENTALLY**

L. Mazzoni Drank Solu-
tion of Morphine.

HE DIED THIS MORNING

Had Been Sick With Rheumatism
and Thought He Was Drink-
ing Water.

L. Mazzoni, the well-known proprietor
of Mazzoni's bottling works on Granite
street, died early this forenoon as the re-
sult of taking an overdose of medicine.

Dr. J. E. McSweney was attending Mr.
Mazzoni. On leaving him last evening
the physician left some medicine contain-
ing morphine, with the instructions to
take half a tea-spoonful. About midnight
the patient awoke. Wishing for a glass
of water the patient reached to a little
table which was near the bed. Instead of
getting the glass of water as he supposed
he got the medicine left by the physician.

In the darkness he did not recognize the
difference and took three swallows of the
solution. Some time later he was taken
violently ill, and at half past one this
morning Dr. McSweney was called, and
afterwards Dr. M. L. Chandler. Both
physicians worked hard to save the man's
life, endeavoring to pump the morphine
from his stomach, but to no avail. The
patient died a few hours after drinking
the solution.

The deceased leaves a wife and five
small children, the oldest of whom is six
years of age. Mr. Mazzoni came to this
city from Burlington about one year ago
starting a bottling establishment which he
had since conducted. He was born in
Tuscany, Italy, forty years ago, and
had resided in the United States for a
good many years. He was well known in
this city.

The funeral will be held tomorrow
afternoon at 2 o'clock and the interment
will be in the Catholic cemetery.

**MANY ARRESTS MADE
BY BARRE POLICE**

Seven Were Gathered in For Intoxi-
cation in One Bunch Yester-
day Afternoon.

Chief Brown, Officers Hamel and Wood
and Constable Laviolette yesterday after-
noon swooped down on a party of men who
were enjoying themselves in a shed on
Burnham's meadow, armed with warrants
charging them with intoxication. The of-
ficers understood that there were seven
members of the party, but when they
reached the rendezvous they found eight.
Having warrants for but seven, they were
compelled to leave the eighth member be-
hind much to the relief of that party.

When arraigned in court five of the seven
pleaded guilty to a first offence of in-
toxication and two to a second offence, and
all who declared it was their first offence
went to jail for ten days, while those who
had been through the mill once decided to
pay up and have their liberty. Three of
the men were in such condition that they
were brought up before the court last eve-
ning and the remainder were up this
morning.

John McVeigh, who gave his residence
as Williamstown, said it was his first
offence and was fined \$5 with costs,
which he didn't pay and went to jail.
Michael Clemens of the town did the
same, even to going to jail for ten days.
Angus Steward of this city said it was
his second offence and the court agreed
with him. He paid \$15 with costs of
\$7.50.

This morning these men were up. Peter
Larivee of Manchester, N. H., who was a
stranger in the city, pleaded guilty to a
first offence and will spend ten days of his
vacation in the county jail. James Fary
of this city was up for a second offence,
pleaded guilty and paid \$15 with costs of
\$7.50. Joseph Crane of Barre town said
it was his first appearance and he decided
to go to jail instead of paying his fine. Wil-
liam Smith of the town of Barre was the
last one of the bunch and he pleaded
guilty as did all the others. He will spend
ten days in jail.

Alex Duff was in court yesterday having
been arrested in the forenoon by Chief

**WORKING FOR
SETTLEMENT**

Barre Manufact'rs and
Union Fail to Agree.

PROPOSITION IS REJECTED

By Cutters This Forenoon—They Ap-
point Lockout Committee—Bosses
Meet This Afternoon.

The situation in the granite industry
remains practically unchanged despite the
efforts to settle the differences. As a re-
sult of the meeting of the manufacturers,
which continued from yesterday at 2
o'clock until 7 o'clock in the evening, a
proposition was presented through the
grievance committee of the union to the
whole body at its meeting in the opera
house at 8 o'clock this morning.

Fully 1,360 union men attended the
meeting, and the proposition from the
manufacturers was discussed. Although
no vote was taken it was the opinion of
the meeting that the proposition could not
be considered by the union. With that
view of the case the discussion of it ceased.
The union then appointed what is called
the lockout committee, which is made up
of the following men: Fred Bruce, Rich-
ard Gregg, Antonio Frontini, John Ander-
son and James McAdam.

The union has prepared a statement to
the public which is printed in these
columns today, signed by the president
and the secretary of the union.

The Manufacturers' Association will
meet again at three o'clock, but it is not
known whether any proposition will be
drawn up to substitute the one rejected by
the union today.

In addition to the shutting down of the
granite business in the surrounding towns
as reported yesterday, the industry at
West Berlin was tied up yesterday after-
noon.

TO THE PUBLIC OF BARRE.

Official Statement From Committee of
Barre Branch G. C. S. U.

So many incorrect and conflicting state-
ments have appeared concerning the
conditions existing between the Branch
and the Manufacturers' Association over
subcontracting dispute that the Branch
desires the following statement made pub-
lic.

The trouble arose over two firms refus-
ing to comply with the arrangements made
to govern subcontracting. Those arrange-
ments were recognized and acted upon
without question for at least 13 months,
and the attempt to ignore them came as a
surprise to the committee.

Notwithstanding the unlooked for na-
ture of the trouble
